He saw the garden tomb where the resurrection took place, he stood on the Mt. of Olives where the ascension of the Lord was enacted. He drank from Jacob's well, went boating on the sea of Galilee, visited the Dead Sea, witnessed a baptismal service at Bethabara on the Jordan river where Jesus Christ was reputed to have been baptized.

He spent a Sabbath day in Nazareth where Jesus lived, saw the star which marks the birthplace of Jesus in Bethlehem. He stood on Mars Hill where St. Paul preached his marvelous sermon to the Athenians, visited the Vatican in Rome and wandered through the Catacombs. He drove over Flanders Fields and saw the graves of thousands of our

(International News Service) LONDON, Sept. 24-Much condemnation and scant praise were heaped on Gen. John J. Pershing and the 'fussy muddle" that represented American participation in the World war in the vitriolic fifth volume of David Lloyd George's Memoirs, published today.

Britain's war-time premier lauded the courage and fighting spirit of the American soldier, but centered his attack on Gen. Pershiing's intransigeant insistence that the American army be maintained separately, have a sector of its own, and that each American division be

The "vainglorious inflexibility of the professional mind" was blamed for Gen. Pershing's refusal to rush the American infantry, at Marshal Ferdinand Foch's demand, into battle as parts of the British and French commands.

For this reason, according to the writer, American participation during the first year after her declaration of war was "comparatively insignificant." Gen. Pershing, Lloyd-George said, "could see no farther than the exaltation of his own command, the jealous maintenance of his own authority . . . He was quivering with suspicion that the British nd French and French meant to rob him of his army.'

carrying too much fat-do something about it. Try the treatment that has helped millions to reduce excess

There's a reason why so many people find dieting slow and often imes futile in reducing. The reason, doctors say, is often because a little gland is not working right.

All the blood in your body goes through this tiny gland sixteen times every day. If it doesn't pour into the blood stream about one and one-half drops of vital fluid every 24 hours, many people take on ugly fat. This fluid helps Nature to "burn up" excess food and fatty tissue in much the same way as a good "draft" acts

in a furnace. Now, physicians combat this condition by feeding this gland the substance it lacks - and millions of pounds of excess fat has been wiped out in this way

Marmola Prescription Tablets are based on the same method used by doctors. So don't waste your time or money striving to reduce with starvation diets or back-breaking exercises. Start the Marmola treatment today that millions have used successfully to get rid of excess fat. The formula is in every box so you know just what you are taking. ### PITT PREPARES FOR OPENER

Will Play Ohio Wesleyan At Pitt Stadium On Saturday

PITTSBURGH, Sept. 24-Back to

The Ohioans are expected to arrive in Pittsburgh Friday and will hold a workout on the Pitt Stadium turf that afternoon.
